

Dear FCC;

I have been trucking for 49 years, and have an XM radio and just love it. The XM Instant Traffic & Weather has been a big help to me as a trucker, this should have been offered years ago!

PLEASE REJECT THE NAB'S petition 04-160

I can't think of any reason someone would object to this very helpfull service, it can help anyone, not just the truckers. They should add more cities to it.

Why would NAB even think of wanting to restrick this service?

William M Hadden
